Dokumentacija

za sajt: <http://milos-medic.byethost16.com/index.php>

Smer: Internet tehnologije

Modul: Web programiranje

Predmet: Web programiranje PHP1

Beograd, jun 2016. Godine

Sadržaj

1. Uvod	3
1.1. Korišćeni programski jezici	3
1.2. Opis funkcionalnosti	3
1.3. Template za sve strane	4
1.4. Korišćeni CSS	5
2. Organizacija	9
2.1. Organizaciona šema	9
2.2. Stranice	10
3. Kodovi	30
3.1. JavaScript	30
3.2. CSS	47
3.3. PHP	99
4. Dizajn baze	223

1. Uvod

1.1 Korišćeni programski jezici i okruženja

HTML, CSS, JavaScript, jQuery, PHP, AJAX, MySQL baza podataka, jQuery pluginovi: lightbox-0.5. Projekat je pisan u Sublime Text 3 editoru.

1.2 Opis funkcionalnosti

-Admin panel: Pristup administracionom delu sajta imaju samo autorizovani korisnici - administratori. Služi da administratorima olakša manipulaciju sadržajem na sajtu, kao što su: izmena, brisanje i dodavanje korisnika, izmena i brisanje postova, komentara, ugnjeđenih komentara i anketa. Pristupa se klikom na dugme Cpanel, koje se nalazi u meniju pored galerije slika, posle logovanja administratora.

-Registracija: Registrovanje korisnika je realizovano tako da nakon popunjene forme za registraciju salje se mail korisniku sa linkom za potvrdu registracije, jer u suprotnom ako se registracija ne potvrdi, korisnik ne može pristupiti sajtu.

-Dinamički meni: Nalazi se na svakoj strani u futeru, povlačeći podatke iz baze .

-Logovanje i zaštita sesijama: Logovanje se nalazi na početnoj strani u gornjem desnom uglu. Provera se vrši regularnim izrazima na klijentskoj i serverskoj strani. Nakon uspešne provere prave se sesije sa prethodno pokupljenim podacima iz baze podataka. Sesija se briše kada se klikne na dugme Log out koje se nalazi u padajućem meniju pored slike ulogovanog korisnika.

-Anketa: Na sajtu postoji nekoliko anketa koje administrator može aktivirati ili deaktivirati. Postoji jedno mesto na sajtu za anketu i to na svakoj stranici osim na početnoj. Samo jedna anketa može biti aktivirana (prikazana) u isto vreme. Glas se zapisuje u bazu preko AJAX-a i PHP-a, a zaim se AJAX-om povlači ukupan zbir broja glasova i korisniku nakon glasanja ispisuje rezultate ankete.

-Filtriranje: Na početnoj strani korisnici mogu klikom na jedna od radio button-a, koji se nalaze sa desne strane ispod informacija o forumu, filtrirati prikazane postove po tagovima koji su izlistani.

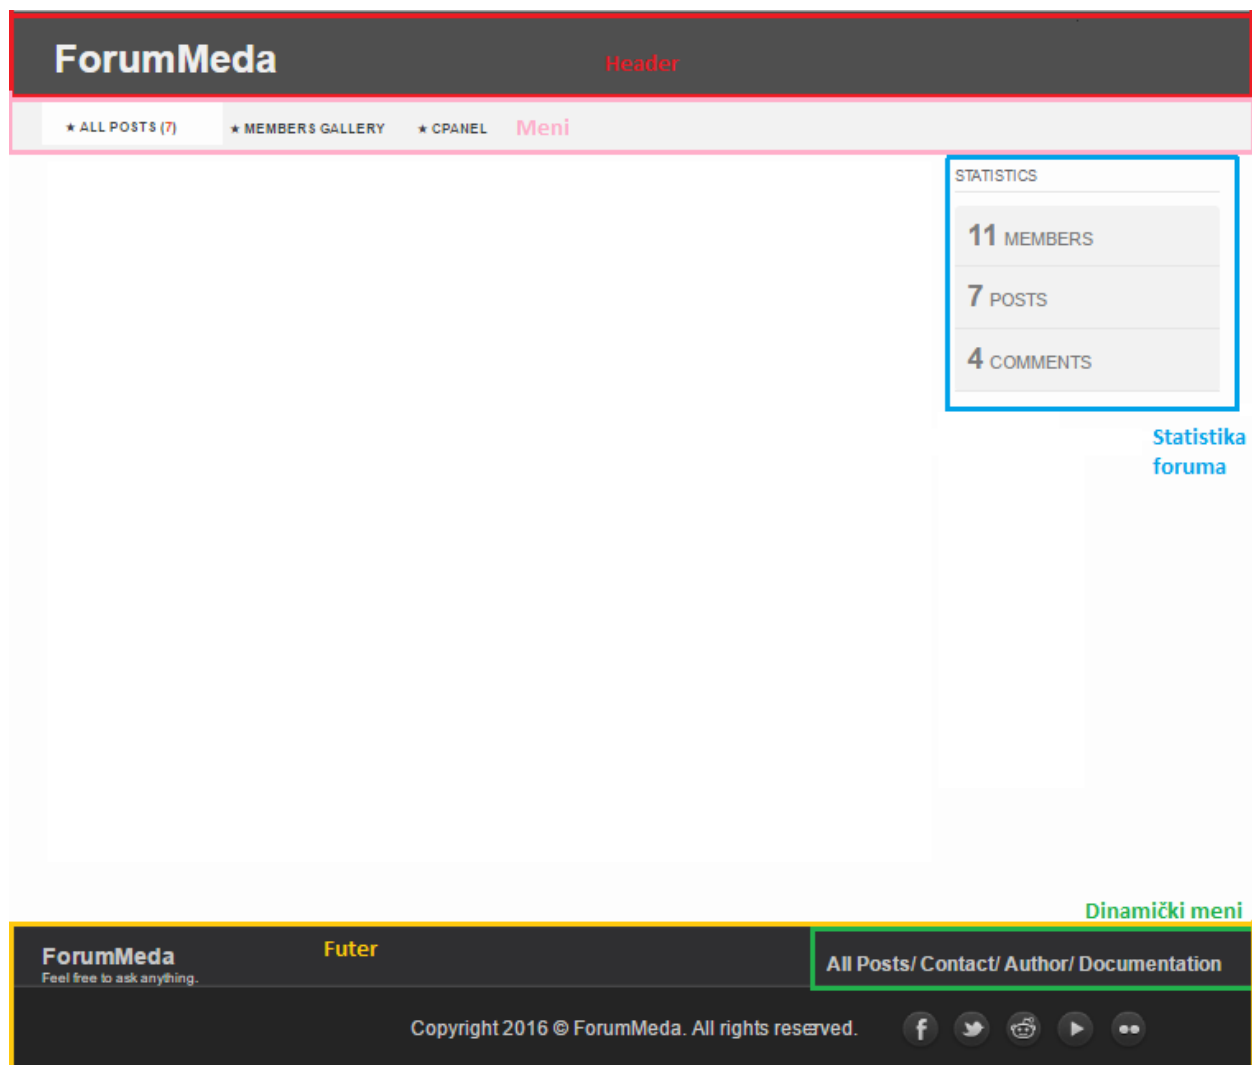

-Postovi, komentari, ugnjeđeni komentari: Na početnoj strani ulogovanim korisnicima je omogućeno da postavljaju teme (naziv, opis, tag) a zatim klikom na temu ista se može komentarisati a zatim svi komentari se mogu dodatno komentarisati.

-Straničenje: Se nalazi na početnoj stranici, gde se iz baze izvlace postovi i pokaziju po 5 posta po strani, na stranici profila korisnika, i u admin panelu za sve.

-Singlepage

-Galerija: galerija je uradjena lightbox, sve slike korisnika se citaju dinamički iz baze.

1.3 Template

```

<?php
    session_start();
?>
<!DOCTYPE html PUBLIC "-//W3C//DTD XHTML 1.0 Strict//EN" "http://www.w3.org/TR/xhtml1/DTD/xhtml1-strict.dtd">
<html>
<head>
    <title>Meda - Forum</title>

    <meta name="keywords" content="Forum, meda, it, php, javascript, ForumMeda"/>
    <meta name="author" content="Milos Medic"/>
    <link rel="shortcut icon" href="images/icon.ico"/>
    <link rel="stylesheet" type="text/css" href="css/style.css"/>
    <link rel="stylesheet" type="text/css" href="css/class.css"/>
    <link rel="stylesheet" type="text/css" href="css/lightbox.min.css"/>
    <script type="text/javascript" src="script/jquery-2.2.4.min.js"></script>
    <script src="//code.jquery.com/ui/1.11.4/jquery-ui.js"></script>
    <script type="text/javascript" src="script/mainscript.js"></script>
</head>
<body onload='ajaxprovera();'>
    <?php
        include("header.php");
    ?>
    <?php
        include("menu.php");
    ?>
    <div id="wrapper">
    </div>
    <?php
        include("footer.php");
    ?>
    <script type="text/javascript" src="script/lightbox-plus-jquery.min.js"></script>
</body>
</html>

```

1.4 Korišćeni css

-Korišćen je tuđi css za light box plugin.

```

#jquery-overlay {

    position: absolute;

    top: 0;

    left: 0;

    z-index: 90;

    width: 100%;

    height: 500px;

}

#jquery-lightbox {

    position: absolute;

```

```
        top: 0;

        left: 0;

        width: 100%;

        z-index: 100;

        text-align: center;

        line-height: 0;
    }

    #jquery-lightbox a img { border: none; }

    #lightbox-container-image-box {

        position: relative;

        background-color: #fff;

        width: 250px;

        height: 250px;

        margin: 0 auto;
    }

    #lightbox-container-image { padding: 10px; }

    #lightbox-loading {

        position: absolute;

        top: 40%;

        left: 0%;

        height: 25%;

        width: 100%;

        text-align: center;

        line-height: 0;
    }

    #lightbox-nav {

        position: absolute;

        top: 0;

        left: 0;
```

```
        height: 100%;

        width: 100%;

        z-index: 10;

    }

    #lightbox-container-image-box > #lightbox-nav { left: 0; }

    #lightbox-nav a { outline: none;}

    #lightbox-nav-btnPrev, #lightbox-nav-btnNext {

        width: 49%;

        height: 100%;

        zoom: 1;

        display: block;

    }

    #lightbox-nav-btnPrev {

        left: 0;

        float: left;

    }

    #lightbox-nav-btnNext {

        right: 0;

        float: right;

    }

    #lightbox-container-image-data-box {

        font: 10px Verdana, Helvetica, sans-serif;

        background-color: #fff;

        margin: 0 auto;

        line-height: 1.4em;

        overflow: auto;

        width: 100%;

        padding: 0 10px 0;

    }
```

```
#lightbox-container-image-data {  
    padding: 0 10px;  
    color: #666;  
}  
  
#lightbox-container-image-data #lightbox-image-details {  
    width: 70%;  
    float: left;  
    text-align: left;  
}  
  
#lightbox-image-details-caption { font-weight: bold; }  
  
#lightbox-image-details-currentNumber {  
    display: block;  
    clear: left;  
    padding-bottom: 1.0em;  
}  
  
#lightbox-secNav-btnClose {  
    width: 66px;  
    float: right;  
    padding-bottom: 0.7em;  
}
```

How do I quit Android emulator when force quit does not work?!

➡ All I want to do is to be able to force quit these icons. I have tried both `killall` Dock and `killall`

asked by Administrator

It basically reads value from memory, increments it and puts back to memory.

answered 1 months ago by test

Not really..

About me

Hi, my name is Miloš Medić, I was born on 29th of January in 1995. I graduated from the middle Electrotechnical school "PTT", for telecommunications engineering. Upon finishing high school I got accepted to "ICT College of Vocational Studies" in Belgrade in 2014, where I'm currently in the second year of studies. This is my third school project.
